GAS FRYERS  
(Floor Model) 

Models: 718LCG, 724CG, 734CG 

Belshaw’s 700 series gas-heated Open Kettle Fryers are designed to efficiently produce high quality donuts. Our tube-burner design offers superior performance over flat-bottom fryers by providing a cold zone under the fryer tubes. This cold zone collects deposits and ensures longer shortening life and higher quality donuts. 

Belshaw has leveraged its specialization in donut production to add design features that add value for our customers. Our ‘Controlled Combustion’ burner tube technology leads the industry in gas efficiency, generating savings throughout the life of the fryer. 

Belshaw’s 700 series Open Kettle Fryers accommodate the EZ Melt under-kettle shortening melter/filter as well as Belshaw Type ‘B’ and Type ‘F’ donut depositors. Easy-to-use submerger screens can be added to further improve production efficiency. 

Belshaw provides a full line of complementary equipment that saves labor cost and improves quality consistency: 

• EP18-24 Proofing Cabinet 
• Type ‘B’ and Type F cake donut depositors 
• EZ Melt Shortening Melter-Filter 
• SF Shortening Filter
