

**AE20, AE30, AE40 & AE-60 SPECIFICATIONS**

**Mixer Specifications**

**TRANSMISSION** is made of hardened alloy steel gear much larger than a common similar sized mixer available on the market today. All shafts are mounted in heavy duty ball or roller-bearing.

**LUBRICATIONS:** Gears receive continuous oil lubrication

**SPEEDS** Three speed transmission with power motor gives you a 3 speed mixer with a high torque.
